Minitiouner is not anymore available

DATV-NotSoEasy RX decoding via UDP stream

References

The screenshot displays the homepage of swissATV.ch, a website for the IAPC amateur television group. The header features the site logo, a navigation menu with items like Home, News, Activités, Hardware, Académie, and Labs, a search bar, and a font size control. Below the header, there are filters for categories (All, News, Labs, Tests, Hardware, Software, Académie) and sorting options (Default, Title, Date, Random). The main content area shows a grid of four article cards:

- A-Tech 2014 Automne**: 2014-10-22 09:50:46. Includes a photo of a workshop.
- DATV-Express DVB-T 1 MHz**: 2014-10-13 11:10:14. Includes a photo of a green PCB.
- H264 DigiThin**: 2014-10-01 17:23:43. Includes a photo of a yellow PCB.
- DVB-T2, le standard pour...**: 2014-08-15 12:30:06. Includes a photo of an i-TAB DTV tablet.

Below the grid, a 'Hardware' section features five smaller article cards with 'Read More' buttons:

- SR-Systems
- MK808 Digitale
- BATC DTX1
- AGAF
- Hides USB DVB-T

Good hack !
